# **The Future of Drug Safety: From Clinical Trials to Real-World Evidence**

**Date: 23 August 2025**

## ABOUT THE UNIVERSITY

Medicaps University is one of the leading private universities in Central India. Since its inception, the institution has consistently aimed at creating an ideal ambience for budding technocrats and helps them to grow like true professionals. We have an optimal blend of academic brilliance and industry exposure. This has helped us in refining the candidature of our graduating students from the engineering, management, agriculture, commerce, science, pharmacy and arts field for the last 25 years.

## ABOUT THE DEPARTMENT

The Faculty of Pharmacy at Medicaps University offers a comprehensive Pharmacy education with a focus on leadership and practical learning.

Our program is designed to help students acquire knowledge and skills required to meet the challenges of the rapidly evolving healthcare industry.

In addition, we also offer a Doctor of Philosophy program to help students develop advanced research skills and expertise in the field of pharmacy.

## ABOUT THE SCRMP

The Society of Clinical Research and Medical Professionals is a registered society in Telangana, India and a dedicated non-governmental organization committed to advancing the field of clinical research and supporting medical professionals. Established to foster innovation, education, and collaboration, our society serves as a hub for researchers, health care providers, and medical practitioners. We strive to enhance the quality of clinical research, promote ethical practices, and ensure that medical professionals are equipped with the latest knowledge and tools to improve patient care. Through workshops, seminars, and various initiatives, we aim to create a thriving community that contributes significantly to the advancement of medical science and the betterment of global health and life science industry.

## ABOUT THE CONFERENCE

The Society of Clinical Research and Medical Professionals (SCRMP) proudly presents its International Annual Conference, focusing on the critical evolution of drug safety- from controlled clinical trial settings to the integration of real-world evidence (RWE) in regulatory and clinical decision-making. The high-impact event brings together global thought leaders, regulatory experts, academic researchers, and healthcare professionals to explore how innovations in pharmacovigilance, data science, and real-world data are shaping the future of patient safety and therapeutic development.
